BULLETIN 1 *Revised*

INTRODUCTION

September 2004

The CCDC is a national joint committee responsible for the development and production of Canadian standard construction documents (contracts, guides and forms) for use by owners, the design professions and contractors. The committee members include independent owners from both the private and public sectors, together with representatives from the Royal Architectural Institute of Canada, the Association of Consulting Engineers of Canada, Construction Specifications Canada, and the Canadian Construction Association as well as a lawyer from the Canadian Bar Association - Construction Law Section (ex-officio).

The committee has found that in responding to various inquiries concerning the CCDC standard documents and during their development, it often encounters information and material which may be of interest to the users of the CCDC forms. For this reason, the committee, as part of its mandate, provides information bulletins through its constituent member associations on the subjects of interest related to the CCDC family of standard documents. These bulletins are published from time to time when subject matter and circumstances warrant. This service has been proven to provide users with helpful guidance and insight into both the documents themselves and the issues that they address.

Engineers
of Canada

Bulletin Number 2, provides a list of CCDC contract forms, guides, bulletins and other documents that are currently available for use in the Canadian construction industry. These documents may be obtained in electronic or hard copy format. To order, call your local construction or design profession association.

For further information please visit the CCDC web site www.ccdc.org.

(CCDC bulletins are products of a consensus-building process aimed at balancing the interests of all parties on the construction project. They reflect recommended industry practices. Readers are cautioned that CCDC bulletins do not deal with any specific fact situation or circumstance. CCDC bulletins do not constitute legal or other professional advice. The CCDC and its constituent member organizations do not accept any responsibility or liability for loss or damage which may be suffered as a result of the use and interpretation of these bulletins.)
